

# LASER LANDSCAPES AND EXCAVATION

## CAPABILITY 2025 STATEMENT 2026

CONCRETE WORKS | EXCAVATION

WET OR DRY PLANT HIRE | SANDSTONE RETAINING WALLS

# COMPANY OVERVIEW

Laser Landscapes and Excavation is a locally owned and operated business providing specialised civil works, concreting and excavation services. We have established ourselves as a trusted provider across the Blue Mountains, Central West and Western Sydney regions. Our diverse team is comprised of concreters, labourers, operators and landscapers who deliver high-quality outcomes tailored to the unique requirements of our clients.

We are committed to serving our community with local expertise and a transparent approach. Our mission is to foster open communication and build long-lasting relationships with clients by delivering excellence in civil works, concreting and excavation.

***Delivering regional excellence, ensuring tailored solutions for communities across the Blue Mountains and beyond.***

## OUR SERVICES

Our range of services is designed to meet diverse project requirements. We are dedicated to delivering superior quality and reliability across all our work.

### WET OR DRY PLANT HIRE

We provide a range of earthmoving equipment including excavators (1.7-20t), tippers (3t-14t) and site dumpers for commercial and civil projects across NSW.

### BULK AND DETAILED EXCAVATION

We provide expert excavation services utilising advanced machinery and techniques to handle projects of varying complexity, including confined spaces, challenging terrains and intricate requirements.

### SANDSTONE RETAINING WALLS

We specialise in constructing large scale sandstone retaining walls for commercial and civil applications including water catchment areas, retaining walls, riverbank rehabilitation and new estates.

### CONCRETE WORKS

We deliver comprehensive concrete solutions for councils, private sector clients and civil contractors. Our services include footpaths, blind slabs, exposed aggregate, bicycle paths and parking lots.

## INDUSTRIES WE SERVE

We serve clients across a range of sectors, offering tailored solutions that align with their goals. Our expertise ensures seamless execution, long-term durability and lasting value for clients, communities and regional developments.

✓ CIVIL

✓ COMMERCIAL

✓ CONSTRUCTION

Seamlessly integrating durability and aesthetic appeal, delivering functional, long-lasting structures tailored to meet the needs of your project.

## CASE STUDY

### ✓ THE CHALLENGE

block adjacent to a busy two-lane highway. The project required specialist excavation to bedrock, installation of concrete piles and rock bolts, as well as the construction of retaining walls and work platforms.

### ✓ OUR SOLUTION

We addressed the site's challenges by implementing traffic control during low-traffic periods and utilising long-reach excavation equipment. We maintained consistent communication with the interstate client through daily updates, ensuring their involvement in key decisions.

### ✓ THE RESULT

The project was completed on time and within budget, ensuring minimal disruption to neighbouring properties and traffic. The newly constructed concrete road and parking bay adhered to all safety regulations.

*Our use of specialist equipment and precise planning ensured timely completion while adhering to the highest safety and quality standards.*

## OUR CLIENTS

Our portfolio includes notable organisations such as government bodies, councils and private companies, demonstrating our ability to deliver successful outcomes for high-profile clients in diverse sectors and challenging project environments.

*Transparent communication, superior results – achieving success through open client collaboration and dedicated support.*

## LASER LANDSCAPES AND EXCAVATION

### ACCREDITATIONS

We adhere to the highest standards of quality and compliance. These accreditations underline our dedication to delivering reliable and innovative solutions across all projects.

***Delivering quality outcomes every time by adhering to the highest industry standards and innovative practices.***
